

## Conferences

Vance G.\*, **Clementucci R.**, Picotti V. & Willett S.D., 2024. *Catchment-averaged denudation rates in the Northern Apennines and Ligurian Alps and implications for landscape dynamics*. SGI 2024 in Bari. Congress of Italian Geological Society. (Invited)

**Clementucci R.\***, Uchusov E., Willett S. & Wang Y., 2024. *External forcing on drainage divide evolution in rifted margins: case of Madagascar*. SGI 2024 in Bari. Congress of Italian Geological Society.

Yaaqoub A.\*, Essaifi A., **Clementucci R.**, Ballato P., Zayane R., Faccenna C. & Pagli C., 2024. *Incision rates into Quaternary lava flows of the Middle Atlas and Western Mesta (Morocco): implications for landscape evolution*. SGI 2024 in Bari. Congress of Italian Geological Society.

**Clementucci, R.\***, Willett, S., Wang, Y., Datian, W., Haghipour, N., Randriamananjara, H., and Ranaivoson, N. T.: *Long-term denudation and topographic relief evolution of Central and Northern Madagascar*. EGU General Assembly 2024, Vienna, Austria, 14–19 Apr 2024, EGU24-10522, <https://doi.org/10.5194/egusphere-egu24-10522>, 2024.

Kaerger, L\*., Del Ventisette, C., Vannucchi, P., Boswell Keir, D., Pagli, C., **Clementucci, R.**, and Molli, G. *Detecting signals of active tectonics with geomorphological methods in the slowly deforming Val di Fine Basin, Northern Apennines – limits to the resolution?*. EGU General Assembly 2024, Vienna, Austria, 14–19 Apr 2024, EGU24-1177, <https://doi.org/10.5194/egusphere-egu24-1177>, 2024.

**Clementucci R.\***, Willett S., Wang Y., Datian W., Negar H., Randriamananjara L. H., Ranaivoson N.T., 2023. *Drainage Network Evolution and Long-Term Retreat of a Great Escarpment (Northern Madagascar)*. In AGU23, 2023 American Geophysical Union. 2023.

Faccenna C., Becker T., **Clementucci R.**, Lanari R., Reitano R., Siravo G., 2023. *Deep mantle forcing on the rise of mountain belt*. In AGU23, 2023 American Geophysical Union. 2023. (Invited)

Leon S., Conrad E., **Clementucci R.**, Faccenna C., 2023. *Evolution of the intramontane basins of the Western Colombian Andes in response to a transpressional deformation regime*. In AGU23, 2023 American Geophysical Union. 2023.

Lanari R.\*, Faccenna C., Natali C., Uluocak S., Fellin M.G., Becker T.W., Gogus O.H., Youbi N., **Clementucci R.**, Conticelli S., 2023. *The Atlas of Morocco: a Plume-Assisted Orogeny*. In AGU23, 2023 American Geophysical Union. 2023.

**Clementucci R.\***, Lanari R., Faccenna C., Zoppis G., Ballato P., Crosetto S., Reitano R., 2023. *Morpho-tectonic evolution of southern Apennines: Insights from Pollino range and surrounding intermountain basins*. In AGU23, 2023 American Geophysical Union. 2023.

Kaerger L., Del Ventisette C., Vannucchi P., Keir D., Pagli C., Molli G., **Clementucci R.**, 2023. *Preliminary results on Geomorphic and Seismological Analysis on Earthquake and Tsunami Hazards in the inner Northern Apennines*. XXI INQUA 2023.

**Clementucci, R.**, Ballato, P., Siame, L., Faccenna, C., Racano, S., Torreti, G., Lanari, R., Laetitia, L., and Guillou, V. 2023. *Cenozoic uplift history and topographic rejuvenation of the northern Atlas-Meseta system (Morocco)*, EGU General Assembly 2023, Vienna, Austria, 24–28 Apr 2023, EGU23-11243, <https://doi.org/10.5194/egusphere-egu23-11243>, 2023.

Reitano, R., **Clementucci, R.**, Conrad, E. M., Corbi, F., Lanari, R., Faccenna, C., and Bazzucchi, C., 2023. *Stream erosion in analogue models*, EGU General Assembly 2023, Vienna, Austria, 24–28 Apr 2023, EGU23-8247, <https://doi.org/10.5194/egusphere-egu23-8247>, 2023.

**Clementucci R.\***, 2022. *Erosional dynamics and surface uplift in a rejuvenated landscape: insights from the Western Moroccan Meseta*. 16<sup>th</sup> International Young Geomorphologist Meeting, Bad Kreuznach (Germany), June 24<sup>th</sup>–26<sup>th</sup>, 2022.

Reitano, R., Faccenna, C., Funicello, F., Corbi, F., Lanari, R., & **Clementucci, R.**, 2022. *Stream laws in tectonic landscape analogue models*. SGI 2022 in Turin. 91<sup>o</sup> Congress of Italian Geological Society.

**Clementucci R.\***, Ballato P., Siame L., Faccenna C., Yaaqoub A., Essaifi A., Leanni L., Guillou V., 2022. *Lithological control on erosional dynamics in a tectonically inactive mountain belt (Anti-Atlas, Morocco)*. EGU General Assembly 2022, Vienna, Austria, 23–27 May 2022, EGU22-11675. <https://doi.org/10.5194/egusphere-egu22-11675>, 2022.

Yaaqoub A.\*, Essaifi A., **Clementucci R.**, Ballato P., Faccenna C., 2022. *Drainage network as an indicator of tectonic evolution of mountain belts: insight from the Middle Atlas (Morocco)*. EGU General Assembly 2022, Vienna, Austria, 23–27 May 2022, EGU22-6048. <https://doi.org/10.5194/egusphere-egu22-6048>, 2022.

**Clementucci R.\***, Vona A, Ruocco V., Di Camillo G., Yaaqoub A., Di Fiore F., Ballato P., Siame L., Essaifi A., Faccenna C., 2021. *Incision history and emplacement dynamics of alkaline lava flows in the Western Meseta (Morocco)*. BeGeo Scientists 2021 in Naples.

**Clementucci R.\***, Ballato P., Siame L., Fox M., Sembroni A., Yaaqoub A., Lanari R., Faccenna C., Essaifi A., 2021. *Rejuvenation of a tectonically inactive mountain belt: insights from the Anti-Atlas (Morocco)*. SGI 2021 in Rome. 90<sup>o</sup> Congress of Italian Geological Society.

Yaaqoub A.\*, Essaifi A., **Clementucci R.**, Ballato P., Faccenna C., 2021. *Tectonic deformation and mantle-driven uplift of the Middle Atlas mountain belt (Morocco) during the late Cenozoic*. EGU General Assembly 2021, Online, 19–30 Apr 2021, EGU21-13646. <https://doi.org/10.5194/egusphere-egu21-13646>.

**Clementucci R.\***, Ballato P., Siame L., Yaaqoub A., Essaifi A., Leanni L., Guillou V., Faccenna C., 2021. *Does lithology control post-orogenic topography and rock erodibility? Insights from Anti-Atlas of Morocco*. EGU General Assembly 2021, online, 19–30 Apr 2021, EGU21-12424. <https://doi.org/10.5194/egusphere-egu21-12424>.

**Clementucci R.\***, Siame L., Ballato P., Yaaqoub A., Essaifi A., Leanni L., Guillou V., Faccenna C., 2020. *Quantifying the dynamic topography through a combination of basin-averaged erosion rates and geomorphic analysis from the Anti Atlas and Western Meseta (Morocco) transient landscape*. EGU General Assembly 2020, Online, 4–8 May 2020, EGU2020-11770. <https://doi.org/10.5194/egusphere-egu2020-11770>.

**Clementucci R.**, Ballato P., Siame L.L., Faccenna C., 2020. *Deciphering mantle contribution on surface uplift in the Anti-Atlas and Western Meseta area (Morocco)*. Roma calls Roma 2020. 29 January 2020.

**Clementucci R.\***, Ballato P., Siame L., Faccenna C., Yaaqoub A., Essaifi A., Leanni L., Guillou V., Faccenna C., 2019. *Deciphering mantle contribution on surface uplift in the Anti-Atlas and Western Meseta area (Morocco)*. Young Earth Scientists Network (YES) Congress in Berlin

**Clementucci R.\***, Lafosse M., Casalbore D., Chiocci F. L. , Gorini C. , Ridente D. , d'Acremont, E. , Rabaute, A. 2019. *Upper flow-regime bedforms on prodeltaic deposits in Gulf of Patti (Sicily) and Al-Hoceima Bay (northern Morocco)*. IAS Congress in Rome.

**Clementucci R.\***, Lafosse M., Casalbore D., Chiocci F. L. , Gorini C. , Ridente D. , d'Acremont, E. , Rabaute, A. 2019. *Comparative analysis and genetic interpretation of erosive-depositional bedforms in Mazzarrà (northeastern Sicily) and Rhis-Nekor (northern Morocco) pro-deltaic systems*. Third Marine Geology Conference in Rome.

Casalbore D.\*, Bosman A., Ridente D., **Clementucci R.**, Chiocci F.L. 2018. *Morpho-stratigraphic characterization of a submarine deltaic system linked to the Mazzarrà River in the Gulf of Patti (Southern Italy)*. SGI 2018 in Catania. 89° Congress of Italian Geological Society.
